

## Certificate

EU-REDcert - 560 - 25351083

By means of an audit on 26.06.2025, documented in a report.

## **SC@PE International GmbH**

Certification Body
Am Schapenteich 2, D-38104 Braunschweig

confirms to

BioAdvance-The Next Generation Lda.

REDcert-ID: 2661

Zona Industrial da Guia Lote 1, 3105-467 Guia Pombal, Portugal

Longitude: 8°,80866 W and Latitude: 39°,94473 N

the compliance with the requirements of the certification scheme

## **REDcert-EU**

a scheme for demonstrating compliance with the sustainability criteria under the Revised Directive (EU) 2018/2001 of the European Parliament and of the Council

This certificate serves as proof of compliance with the requirements of Revised Directive (EU) 2018/2001 for the following scope(s):

| (201) first gathering point                                            | (202) collector of waste/residues                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |

<sup>1</sup>as checked and reported in the audit report, section "sustainable biomass data"
<sup>2</sup>please select biomass category

- AGRI (agricultural biomass e.g. rapeseed or other energy crops produced on farm land)
- Annex IX Part A (biomass listed under <u>Annex IX</u> part A of Revised Directive (EU) 2018/2001)
- Annex IX Part B (biomass listed under <u>Annex IX</u> part B of Revised Directive (EU) 2018/2001)
- WaR (other waste or residues not listed under Annex IX of Revised Directive (EU) 2018/2001)
- Intermediates (products produced by economic operators certified according to scopes 301 to 308 e.g. Biogas, vegetable oil, etc.)
- Final fuel (fuels produced by the last interface e.g. Biomethane, Bioethanol, FAME, etc.)

<sup>3</sup>applicable scope under which the sustainable biomass and / or renewable fuel was handled <sup>4</sup>please select applied GHG methodology

- NUTS2: NUTS2 value (values officially recognized by the European Commission)
- DFV: default value (disaggregated or total default value)
- AC: Actual value (based on individual calculation)
